

Volkswagen has long been famed for reliability and high-quality engineering, and its relationship with Auto-Sleepers goes back to the 1970s. Our VW-based models in the Hightop range are based on the versatile and manoeuvrable VW T5 Transporter with a range of fuel efficient and powerful engine options. Among coachbuilt Auto-Sleepers models with VW power, there's the Sandhurst with its powerful 2.5-litre engine and T5 Al-Ko chassis, which offers all the space and luxury you could wish for. Engine and transmission options for the Sandhurst include 130PS and 174PS and the efficient, relaxing Tiptronic automatic gearbox. In-cab features include a fascia-mounted gearchange, mahogany-finish dashboard and seats with lumbar support.
